Click “Create Branch”

Screenshot of a GitHub repository interface showing the 'Branches' page.

The sidebar on the left shows navigation links: Source, Commits, **Branches**, Pull requests, Pipelines, Downloads, Boards, and Settings. The 'Branches' link is highlighted.

The main area displays the 'Branches' table:

Branch	Behind	Ahead	Updated	Pull request	Builds
master <small>MAIN DEVELOPMENT</small>			11 minutes ago		...
testBranch2	0	3	10 minutes ago	#1 OPEN	...
testBranch3	2	2	2018-09-11	Create	...
testBranch1	6	1	2018-03-14	Create	...

A 'Create branch' button is located in the top right corner of the table header.

Check out your branch

This branch does not contain any changes — check it out on your local machine to do some work.

[Check out in Sourcetree](#)

You can also use this command to check out your branch:

```
git fetch && git checkout zack_test_branch1
```

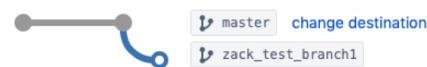

Update with changes

- >git pull
- >git checkout <zack_test_branch1>
- Make some changes/add files
- >git add <file1.txt>
- >git commit -m “commit message”
- >git push origin <zack_test_branch1>
- Check bitbucket to see if commit is on the branch.
